Man. Temp. in the stat falling upon one whose character, career, connections, and social position are a guarantee of his probity. In any event it cannot be too strongly insisted inpon that the Governor of the National Bank of Egypt should be a personage not merely enj pring the fullest confidence of the commercial and financial world, but one whose activities should be restricted to the National Bank alone. We therefore consider that it is the duty of Lord Cromer and Sir Eriest Cassel to take the necessary safeguards that the new Governor should devote his services exclusively to the National Bank and give companies and company-promoting a wide berth. The bank's business, one would think, is sufficiently extensive to take up all one man's time, and the salary is sufficiently remonstative to enable him to withstand the temptation of dabbling in other financial enterprises. Fancy the Governor of the Bank of Regland mixing himself up with a host of petty industrial limited liability companies! The idea sounds preposterous. Yet the National Bank of Egypt holds a position in this country analogous with, if not identical to, that of the Bank of England at home. Even though it be not stipulated in the terms of his appointment, it ought to be part of the unwritten law that the Governor of the National Bank and lond lay down some such' stipulation when the bank was founded. At any rate, now is the time to enforce this most salutary rule, and it will be sertainly to the interest of the bank itselt, no less than to that of Egypt's financial prestige, if the Governor elect should take that strict where of his high position and responsibility.

#### CAPE TO CAIRO.

CAPE TO CAIRO.

The great trunk railway through Africa from south to north, projected by the genius of Mr Rhodes, has made astonishingly quick progress since it orcosed the Zamban at Victoria Falls. When Sir Charles Metcalfe lately visited rail-head, it was 260 miles beyond the great river, and had been advancing at the rate of a mile per diem. Apparently, no engineering difficilities had been encountered up to that data, the country being level and very little broken by watercourses. But a few miles farther on the Kafue River presented itself, no actating the construction of a bridge 1,670 feet long. In European countries that would be regarded as a tough and prolonged labour, but the Briton in Africa ancepts even more formidable obstacles as all in the day's work. While the bridge is being made and got into

A Hint for Advertisers.

A unique and brilliant advertising scheme was conceived the other day by a Brooklyn business man, which might be carried into effect in Cherif Pacha-street or some of the Cairo thoroughfares. LONDON PRESS TRIBUTES.

HIS DETERMINATION TO REMAIN AT THE HELM.

(Gazette's Special Sérvice.)

London, Monday, Jan. 9.

The announcement, which Lord Cromer made on Saturday at Port Sudan as to his determination to remain in Egypt as long as he possibly can, has caused a very favourable impression in the City and also in the Press. In an article on the inauguration and the speech the "Standard" states that the most secure guarantee for the development and prosperity of the Sudan is Lord Cromer's decision to remain in Egypt.

Eulogistic notices pervade the Press, and the "Daily Telegraph" declares that the "proconsular sceptre of Great Britain" never wielded by a stronger man than Lord

Cromer.

#### EGYPTIAN TRUST AND INVESTMENT.

M. Pericles Glymenopulo, administrator of the Egyptian Trust and Investment, Limited. was elected a director of the Alexandria and Ramleh Railway Company at the annual meeting held yesterday at the company's offices, and we understand that arrangements have been made whereby Baron de Kusel Bey, general manager of the Egyptian Trust and Investment Ltd., will join the board of the Alexandria Tramway Compary.

These appointments would e m to indicate and confirm the remours which have been ourrent here for some time past to the effect that the Egyptian Trust and Investment, Ltd. is largely interested in the Alexandria Tramway Company.

The development of the town and surrounding suburbs is increasing rapidly to such an extent that it is evident additional tram lines a d branches will be necessary, consequently this means larger and increased revenues for

the company.

The Egyptian Trust and Investment, who are proprietors of a large extension of land at Ramleh and in the suburbs, have evidently gauged the situation clear'y and taken time by the forelock in securing a large interest in such a prosperous local undertaking as the Alexandria Tramways.

#### CORPORATION OF WESTERN EGYPT.

We understand that this company intends making a bid next season for the supply of the London market with dates from their cases, where the date trees are to be found in large numbers and the fruit is of the finest quality, quite equal in every respect to that of other pointries which now ship to the English markets, viz., Tanis, Algiers, and the Persian Gulf. The latter place exports some 150,000 cases annually to London and a great deal more to America. The oases of Khargeh also produce oranges of a very superior description, and judging by them as a sample of what the cases can grow it is a fair promise of the future agricultural prosperity of the regions owned by the Corporation, the lands of which should considerably increase in value on the completion of the new railway now being laid to Khargeh from Farchout, where it joins the

State railway line to Upper Egypt.

The opening of these cases should prove a valuable addition to agricultural Egypt and explains the statement made by Lord Cromer in his 1904 report, where, referring to the limitations of Expt from the develor mant point of view, he says: "Possibly something may eventually be done.... in the cases of boring of wells, building of railways, expor of fruit, and some other projects contemp this looks very much like something being done and Lord Cromer's prophecies are already being gradually fulfilled.

FURTHER DISCLOSURES.

(FROM A CORRESPONDENT).

Following my last notes on the state of affairs of this company, I have gathered the following, and would especially call the attention of those Ministers who are responsible for its proper administration to remove the burden of inconvenience and annoyance the inhabitants of Psycom province are groaning under It appears the company have all at or ce disco vered they are using more than double the mount of coal they were 18 months ago, and without considering any reason why, decided such engine should have the same as previous-This y (about 100 % less than last month). rder has been in force about a week, and every day one or two of those on the longer runs have finished their fuel when only half-way back home and there the passengers have had to remain until an employé walked to the nearest telephone "for a special" with coal to be sent. In each case these trains have been two or three hours late. On Sunday the train left Tamia at 6 a.m., arriving at Payoum at 3.50 p.m. The distance, be it noted, is 25 kilonetres. 'Magnificent," and proves what can be done when one tries. On Monday I had occasion to call at the

company's offices at 10.30 a.m. but—it is a positive fact - in the whole block of offices there was not a single living being, not even a bowat awake or a leep at the door. I was therefore unable to transact my business. Truly when the cat is away the mice will play. All these receipts. How long will it last?

EGYPTIAN COTTON IN INDIA.

A SUCCESSFUL EXPERIMENT.

The report published by the Board of Land Records and Agriculture states that the grow ing of Egyptian and other varieties of cotto is being carried on steadily in Upper Shand, India. "Yannovitch," the finest of the Egyptian varieties, but regarded as the most delicate of those experimented with, has suffered the smallest am out of deterioration in staple (12] per cent.) from the quality of the Egyptian-grown product, while "Mitaffifi," which is con-sidered the most robust, has shown the greatest amount of deterioration. The general results must, however, be considered as sati-factory in weld as compared even with the Egyptian crop and by the figures the best Egyptian variety should prove 250 per cent. more profitable to the cultivator than the indigenous Sindhi variety. In all, about 1,500 acres of Egyptian cotton were sown in the past season.

Christian IX., King of Denmark, fourth son

of the late Duke William of Schleswig Holstein

Sonderburg-G'ücksburg, was born on April 8, 1812. Before his accession to the Crown he w s Inspector-General and Commander in Chief of the Danish Cavalry. The succession was vested in him by the protocol of Landon, May 8, 1852, and he ascended the throne on the death of Frederic VII., Nov. 15, 1863. On his access sion, the position of affairs with respect to Schleswig-Holstein was completely changed.
The son of the Duke of Augustenburg immediately laid claim to the sovereignty of the duchies, although his father had for a compeneation resigned all his rights in 1852. The independence of Holstein more especially, and of a portion of Schleswig, was warmly espoused by the German Diet, which forthwith ordered the advance of a Federal army to occupy the debatable territory, for the purpose of enforcin its enfranchisement from Danish rule. Befor matters had proceeded far, Austria and Prussis determined to interfere, and by a combined armed occupation of the disputed territory to bring the question to an issue independently of the Diet, and in opposition to the wishes of that body. They accordingly invaded the duchies, which, after a hotly contested campaign, they succeeded in wresting from Denmark, also taking temporary possession of Jutland. Christian IX., disappointed in not obtaining assistance from some Buropean Power, after the failure of the conference con vened in London in 1864,-which failure was in some measure attributable to the obstin of the Danish Government entered int negotiations for peace with Prussia and Austria, and a treaty was signed at Vienna, Oct. 30, 1864. The King of Denmark renounced all his rights to Sobleswig Holstein and Lauenburg, and in 1866 the two German Powers quarrelled over the spoil. Since then his Majesty had sought to develop the interior r sources and popular institutions of his country. A new constitution was inaugurated in Nov., 1866, when the late King opened the first Rigsdag, the members of which were elected in accordance with the new electoral law.

The army and navy have also been thoroughly reorganised agriculture and commerce have received a great stimulus, and several railways have been constructed. Christian IX. and Queen Louise visited the Queen (then Prin-March, 1867. The marriage of the Crown Prince of Denmark with the Princess Louisa, daughter of the King of Sweden, at Stockholm on July 28, 1869, was hailed as a pledge of union between the two countries. His Majesty granted a new constitution to Iceland which came into operation in August, 1874, that being the thousandth year of Iceland's existence a a nation. He went to Reikiajvik on the occasio of the anniversary being celebrated, and on his return paid a flying visit to Leith and E linburgh, Aug. 18, 1874. He visited the Emperor William II. at Berlin in August, 1888, and in the autumn ot 1889 was visited by the Emperor of Russia and his family. In 1842 he married a daughter of the Landgrave William of Hesse-Cassel, by whom he has had six elegram from Sir Brnest Cassell:—"I bave Dagmar, married to the late Tear of Russia. On May 26, .1892, the King and Queen of Denmark celebrated their go'den wedding amid many demonstrations of loyalty and popular rejoicing. PROGRESS OF THE RAILWAY.

RECORD CONSTRUCTION.

Rauter's representative has had an interview with Sir Charles Metcalfe, who has just returned to England on the conclusion of an inter esting journey from the Zambesi to the Congo Free State border.

Discussing the progress of the Cape to Cairo railway, Sir Charles Metcalfe said: "A fortnight ago the rails reached the Kafue River, 260 miles beyond the Victoria Falls, and at this point a bridge 1,600ft long is being constructed to cross the stream. Bayond the Kafue the earthworks are nearly finished for a further distance of seventy miles, so that we hope that the line will reach the Broken Hill zine and lead mines by June. There will thus be continuous communication from Cape Town to a point 374 miles north of the Zambesi. The line is progressing at the rate of one mile a day. On one occasion, however, we managed to lay 5% miles in ten hours. A French engineer who had been constructing railways in French West Africa and was visiting Rhodesia would not at first believe that construction could go or at a greater rate than half a mile a day, and in order to show him what we could do and our method of working, we laid a quarter of a mile in twenty minutes.

"My recent journey to the Congo border had partly for its object a preliminary survey of the regions beyond Broken Hill. While nething has yet been definitely decided as to the further extension, it is probable that the next section of the line will go from Broken Hill due north to Bwone Macubwa, a point on the Congo border, and the centre of a rich copper area in north west Rhodesia, where there are a few whites developing the copper mines. The

region is fine, open, and hilly. "In times past there has been taken out of one about 12ft wide, and the other 5ft wide, and both run close together for a distance of 3,000ft. Under the hill are caves of green malachite, which is very rich in copper. The having an altitude of 4,500ft, was quite cool at G.C. Henry, Hunter Bay; Khartoum; Mr. P. night. The whole of the region is peaceful and secure, presenting a great contrast to the condition of affairs a few years ago. The natives are now free from the raids from which they.

CONCERT FOR UGANDA MISSION.

(FROM A CORRESPONDENT.) Helouan, Saturday.

Visitors at Helouan spent a delightful evening on Wednesday last, when an entertainment was given at the Tewfik Palace Hotel in aid of the Uganda Mission. With the aid of the management a most picture que stage had been erected at one end of the spacious hall and the other part was crowded with over Mr. F. G. Spott, Mrs. A. Spott, U.S.A.; Mrs. one hundred and fifty visitors. The chief attraction consisted of a series of tableaux of Petrie, London ; Mrs. Abbott, Miss A. Abbott, nursery rhymes with modernized versions in which the following took part: Miss Bantley. Miss K. Bentley, Miss Hurst, Miss Phillips, Miss Woodle, Mr. A. Bentley, Mr. W. Bentley, Lt. G. Cory, Mr. Mills, and "Jepp," who, as Mother Hubbard's dog, was inimitab'e.

Between the tableaux there were songs and recitations, among which a whistling solo with auto-harp accompaniment by Miss Tottenham and a most apropos recitation about the "Cairo and Elwan Express," by Mr. Hans Sawyer, deserve special mention. Miss Breeze and Mrs. Phillips also sang, and the Rav. C. H Bunning gave a reading. At the close a hearty vote of thanks was passed to Mrs. Freeman for organizing the entertainment, to Mrs. Mills for superintending the erection of the stage. special worl of praise is due to the manage ment of the hotel on account of the excellent arrangements made for the occasion. The oreditable sum of over L.E. 16 has been forwarded to the Mission

Over thirty people have booked accommodation at the Towik Palace Hotel for Beycam, and this hotel promises to be the rendez-your of a large and select party during the feast.

Basidas pienies and other outdoor amusements, the stabling, which is uniq e, offers an opportunity for those who go in for riding for which the surrounding desert is so justly celebrated. Visitors at the hotel can witness every morning the training of over forty race horses on the course immediately adjoining the hotel.

The second race meeting will take place on Friday next at 2 p.m. and those desirous of reserving tables for lancheon are advised to give notice beforehand to the management as the dining room is gaterally more than full on these occasions. During luncheon a string

band will perform a selection of classical music Combined Tewfik race tickets, including railway fare, luncheor, tea, and entrance to members' enclosure stand and paddick, are obtainable at Stephenson and Co., chemist, Opera-square, Shepheard's Hotel (hall porter) and at the booking office at Bab el Look rai way station, at P.T. 55 for gentlemen and P.T. 40 for ladies.

## \*AN: ARABIC VOCABULARY ANGLO-EGYPTIAN SUDAN.

Captain H. F. S. Amery has compiled an English-Arabic vocabulary primarily for the use of British officers and officials serving in the Anglo Egyptian Sudan. But it is hoped that it may also prove of some use to visitors to the Sudan, or to those interested in the various dialects of the Arsbie language. The work corsists of two distinct elements :- (1) the technical terms in use in the Egyptian Army and in the various departments of the Sudan Government; (2) some 3,500 words of the most common daily usage translated into the Arabic equivalents employed for those in conversation among the Arabs of the Anglo-Egyptian Sudan. The British official, on arrival in the Sudan, has immediately to direct his attention to the acquisition of an extremely difficult language. His difficulties have hitherto been enormously increased by the lack of proficient teachers and the practical absence of any printed assistance. Each new comer has to pick up a large number of most necessary words as best he can, with the result that he is often content with learning just sufficient to enable him to make his meaning intelligible, or to pass the various Government examinations, and even this minimum he acquires more slowly than necessary. dictionary (of reasonable dimensions) exists, which contains even a fraction of the technical Regiments ! MERCHANT SEAMEN'S HOME.

On Thursday evening, the 25 h inst., the annual tea and entertainment given by the ladies of Ram'eh took place at the Home under the organization of Mrs. R J. Moss. Many willing helpers were busly engaged during the afternoon in preraring the tables for the sailors, who arrived at 6 30, numbering fully 200, and sat down to enjoy the ample repast provided. During the supper, each man was presented with a packet of tobacco and New Year's card (the gift of Mrs. Moss) and a "buttonhole." After all had partaken heartily, the tables were e'eared and the musical portion commenced, the Rev. Canon Ward kindly acting as chairman. All the songs, recitations and instrumental items were received with appreciative applause. Many "encores" were called for and readily given.

The concluding number was the comical sketch entitled "Black Justice," given by the nigger troups of the Moss S.S. Seti, amorously illegal decisions of Justice Grabball and the eccentric behaviour of both policeman and prisoners causing much merriment.

On the proposal of the chairman, three hearty cheers were given for the King and Royal Family, which were followed by three more for the ladies of Ramleh and a very pleasant evening terminated at 10 o'clock with another three cheers for the chairman and the singing of the National Anthem.

It was a pleasing incident to notice amongst the audience nine boys of the Blind Industrial School who came under the charge of Mr. Wood, the manager of the school. They fully enjoyed the entertainment and have testified their appreciation by sending a touching letter of thanks, in which Mr. Wood says "Tonight, after fea, they elected their chairman and he to'd all the other boys to whom they were indebted for the good fare and then called for three cheers for the ladies of Ramlah to which they all responded in a very hearty

Special thanks are due to the captains of the S.S. Seti. Menes, Meris and Pabian, for lending flags for decoration.

NOTES ET CRITIQUES

Caire, 29 janvier. A Londres, samedi passé, le Consolidé anglais a olôturé favarié à 90. L'Unifié a baissé de } 104 7 La National Bank a haussé de à à 2 L'Agricola et la Daïra sont restées inchangées

A. Paris, l'action Crédit Foncier a haussé de 3 france à 804 et la Banque d'Athènes, sur laquelle on trouvers plus loin des renseignaments, a gagné 2 france à 134.

Notre marché des valeurs a été, ce matin, assez animé, avec tendance ferme.

La National Bank a avance à 25 3/4-13/16 l'action ancienne et 24 13/16 · la nouvelle. L'A gricole s'est maintenne à son cours précédent. La Cassa di Sconto a monté à 206 l'action ancienne et 234 la nouvelle.

L'action Crédit Foncier s'est inscrite à 803. La Land Allotment a été cotée à 3 1 l'action et 95 la part de fondateur.

Beaucoup de transactions en Exox du Caire. dont la part de capital a clôturé à 190 et la part de jouissance à 266.267.

Dans le groupe des Hôtels, les Nungovich ont cloture à 13, les Bach'er à 4 1/8 et les Upper Egypt à 5 1/4.

Parmi les petites valeurs, les Glymenopoulo ont été activement traitées entre 1 3/16 et 7/32, les New Egyptian à 29 sh. et les Salt and Soda A 21 sh. 6.

La mort de Sir Elwin Palmer a profoudé ment ému le monde financier égyptien, dont le geuverneur de la National Bank était, d'ailleurs, la personnalité la plus éminente, et dans lequel le regretté défunt avait su conandrir toutes les sympathies.

Ce matin en signe de deuil, la Bourse Khédiviale du Caire a suspendu sa séance pendant nne demi heure.

A en groire certaines romeurs, l'Agricultural Bank se proposerait, après le paiement du coupon, de faire une nouvelle émission, ou bien de faire avancer par la National Bank days villions de livres à un taux minime.

Si la nouvelle se confirmait, il y aurait lieu de s'attendre à un mouvement sur cette valeur.

Nous apprenous de source autorisée que conseil d'administration de la Banque d'Athènes proposera à la prochaine assemblée générale le paiement d'an dividende de 6 dr. par action (soit.fr. 5.10) pour le 2ème semestre de l'exercice 1905. Avec les dr. 5, ou fr. 4, payés à titre d'acompte pour le 1er semestre, le dividende annuel ressortira à fr. 9:10, c'est à dire plus de 7 % sur le cours actuel des actions.

160,000 drachmes seront portées à la réserve statutaire, 47,000 à la réserve extraordinaire et 170,0.0 seront consacrées à l'amortissement des créances douteuses. 110.000 drachmes seront, en outre, reportées à nouveau pour l'exer-

En présence de ces résultats vraiment remarquables, les actions devraient se capitaliser à.5 %; en admettant même une capitalisation de 6 %, leur cours devrait être de 150 francs. Somme toute, les affaires de la Banque ont

l'air de marcher à me veille.

Il faut, de plus, tenir compte que la nouvelle Agence du Caire est appe'és à apporter un fort appoint à l'exercice 1906, car cette succursale a déjà obtenu d'excellents résultats dans le court laps de deux mois et demi

Il est question d'une convocation des actionnaires de l'Egyptian Trust and Investment (Glymenopoulo).

Le but de cette réunion serait d'obtenir le transmission des pouvoirs de la Direction de Londres à celle d'Alexandrie.

On a dû remarquer que les parts de fondadu Comptoir Financier et Commercial Cost d'Alexandrie ont atteint depuis quelques jours | Pede, Ital. s. Syria, with part of previous cargo. On affirme à ce propos à Alexandrie que le

Comptoir aurait, en trois mois et demi d'exer-cice actif, réalisé des bénéfices qui s'élèveraient à plus de 6 % du capital social.

Les cours du coton n'ont presque Las subi de changement avant-hier en Amérique. Le disponible et l'Octobre sont renseignés invariés A 11.70 et 10.55. Le Mai seul a perdu 2 points à 41.32.

Les arrivages ont été de 13,000 balles contre 19,000.

Le marché de Liverpool est resté également Ici, le Mars a ouvert, ce matin, à 16 15/32

#### EGYPTIAN TRUST & INVESTMENT

M. Pericles Glymenopoulo, administrateu te l'Egyptian Trust and Investment, Limited a été élu administrateur de l'Alexandria and Ramleh Rullway Company à l'assemblée an nuelle, tenue hier aux bureaux de la Compagnie; nous apprenous de plus qu'à la suite d'un arrangement le Baron de Kusel Bey, directeur général de l'Egyptian Trust aud Investment Ltd., doit faire partie du conseil de l'Alexandria Tramway Company.

Ces nominations semblent confirmer les rameurs qui ont circulé ici ces temps derniers, ramears d'après lesquelles l'Egyptian Trust and Investment Ltd. serait largement intéressé dans l'Alexandria Tramway Company.

La ville et sa banlieue se développent avec ane telle rapidité et dans de telles proportions nae de nouvelles lignes et de nouveaux empranchements seront évidemment nécussaires, ce qui entrainera une augmentation des recettes

de la Compagnie. L'Egyptian Trust and Investment, qui est ropriétaire d'one grande étendue de terrains à Ramleh et dans la baulieue, a bien jugé la situation et saisi l'occasion par les cheveux en s'assurant une importante participation à une entreprise locale aussi prospère que les Tramways d'Alexandrie.

#### BULLETIN DE LA BOURSE

(Aujourd'hui à midi et domis)

restent limitées. On a traité surtout la National Bank, l'Agricole, la Banque d'Athènes et la Salt and Soda.

La National s'avance à 25 27/32 et la Ban ne d'Athènes à 136, tandis que l'action Crédit Conciar fléchit à 803, l'Obligation à 330 et la Cassa di Sconto & 204 3/4 l'ancienne et à 202

De 1 7/83 le Trust monte à 1 1/4 et l'Union Foncière, valeur oubliée depuis quelque temps, de 5 9/16 à 5 11/16 à la suite de quelques achata Les Markets haussent également à 24 et la

Salt & Sods de 21/6 à 21/9, pendant que les Cotton Mills reactionment & 5/9. Parmi les valeurs hôtelières les Upper Egypt

Hotels montent à 5 1/4, en hausse de 1/16 sur le cours d'hier. Le re te de la cote demeure stationnaire et

sans affaires appréciables. La tendance demeure indécise, mais il n'y pas d'apparence que la cote se relève sérieuse ment avant la comaine prochaine.

#### TO OUR VISITORS.

The Eapptian Gazette has much pleasure in presenting to its subscribers the accompanying description of some of the many interesting outes by which they may travel homewards. tireat care has been taken to arrange them as accurately and coneisely as possible, and it will be found that none of them are fraught with difficulty. In choosing the route home there are several things to be considered. To begin with there is the difference in climate between Egypt and the various points at which yea may arrive in Europe.

This depends partly upon the month in which you leave Egypt, for Cairo in January may be a little warmer than the Riviera, and possibly not so warm as Sicily, but in March it will be warmer than Rome, and more uni-formly warm than many other places in Europe Many people leave Egypt far too early in the year, for as a rule the weather in April and May is perfect. The warmest place to go to on leaving Egypt is Sicily.

Some will want to take into consideration the number of days to be spent at sea, and we therefore subjoin a list showing the time oc-cupied on each of the various routes between Egypt and the Continent of Europe.

SICILY.

The direct route to Sicily is by the Plorio-Robattino Co.'s steamers which leave Alex-

andria weekly for MESSINA, where one takes

train to TAORMINA, one of the most charm-

ing and popular places on the island. Giardini is the station at which to alight, and the drive

up to Taermina is most' delightful, occupying

about one hour. In and around the town is much to interest the visitor. The theatre is of

are found all over the island, are an endless

CENTRAL ITALY.

The fine steamers of the North German Lloyd leave Alexandria every Wednesday during the season for Naples, the voyage

being only 3 days.

NAPLES is also reached in 10 hours from
Palermo by the Florio-Robattino Co.'s steam-

ralermo by the Florio-Robattino Co. s steamers, which leave daily. One cannot approach Naples or leave it without wishing to explore some of its islands, besides the lovely places on its bay—Castellamare and Sorrento. The small steamer that takes you to Sorrento [you can drive too] will take you on to Capri.

From Naples to ROME is a train journey of but five hours.

but five hours. All who can will devote at least one week to visiting the many historical and interesting portions of the Eternal City, whose charms and beauties are too well-known

to need comment here.

Leaving the Eternal City with much regret.

FLORENCE, where another week can well be spent admiring the City of Flowers and its sorrounding country. In Florence itself the

churches and galleries are of absorbing interest, whilst the local promenades and excursions should not be omitted. The Cascine is

the most attractive and fashionable promenade in Florence, whilst the Viale dei Colli, one of

the finest walks in Europe, opened 35 years ago, goes winding up through the hills a distance of four miles. The most delightful excursion outside Florence is that to Vallomerous

brosa, with its Monastery 3,300 feet above the sea level. This is made first by ordinary train

from Florence to St. Ellero, thence by cog-wheel railway to Saltino. The ascent through groves of oaks takes an hour, and most striking panoramas are unfolded to view.

PISA is easily reached from Florence in about 2 hours; here there is a fine Cathedral

and the Leaning Tower. A stay of at least one

The steamers, of the P. & O. North German Lloyd, Orient and Messageries Maritimes are the largest. The Anchor, British India, and Bibby Lines are also excellent, and their steamers are largely patronised by travellers to Egypt.

As regards the train journeys from Cairo, the shortest is that to Alexandria, without change (3 hours). That to Port Said, can now be made without change in 41 hours.

The least expensive way to England is by the Moss, Papayanni, Prince, and Westcott lines of steamers from Alexandria to Liverpool. The German Levant line has also good steamers from Alexandria to Hamburg.
